

Product Information

see**BOOST**

What is seeBOOST?

seeBOOST is a wearable electronic magnifier attached to prescription eyeglasses designed specifically to help persons with central vision loss from Macular Degeneration (AMD, Stargardt) and Diabetic Retinopathy (DR). If you are coping with one of these diseases, seeBOOST is the best product available today.

seeBOOST helps make the best use of your remaining vision to allow you to regain some independence and do the things that you love.

UT Southwestern
Medical Center
